SKILLS

Adobe Illustrator, Microsoft Excel, HTML, CSS, Sass, Figma, Javascript, Angular, TypeScript, Nodejs, Express, Java, Spring, Hibernate, SQL, MySQL, MariaDB, Git, GitHub, VsCode

MAIN PROJECTS

Full Stack Web Development - Bank Web App

March 2022 – May 2022 | Internship

- As my final project in the bootcamp I did, I made a **CRUD** system for a bank, where the managers could administrate the clients, messages and the bank's products. The technologies used were **Angular**, **JavaScript**, **Java**, **Spring Boot**, **Hibernate**, **SQL** y **MariaDB**.

Full Stack Web Development - Spotify Clone

March 2022 – May 2022 | Internship

- It was my first full stack Project, where I did a Spotify clone, making a frontEnd with the same look and a server connected with a database with enough sample information to recreate the same functionalities as the real one. For this project frontEnd I used **Angular**, **TypeScript** and **Sass**. And on the server, I used **Java** with **Spring** and **Hibernate**, getting data from a **SQL** database in **MariaDB**.

Web Design - Dry Cleaner

October 2021 | Freelancer | Parkway Cleaners

- Website desing and landing pages, using **Wordpress** and **Elementor**, **HTML**, **CSS**, **Javascript** and **Bootstrap**
- Facebook Ads campaigns.
- Graphic design, logo and signs.
- Social profiles, management and creation.

Web design - Dra Maria Miranda

October 2021 | Freelancer | Agencia Fénix

- Web design for an agency's client using **Wordpress** and **Elementor**

Ecommerce - Supermercados2000

August 2020 | Freelancer | Grupo 2000

- Ecommerce development in **Wordpress** + **Woocommerce**, using a template as guide.
- Facebook Ads campaigns.
